**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer that supports broadband competition. I have used two independent ISPs while I have been a resident of San Francisco: Monkeybrains and Sonic. Monkeybrains was able to provide high-speed, symmetrical broadband with no caps via fixed wireless all for \$35/mo. I switch to Sonic because they offered fiber to the house and delivers symmetrical gigabit speeds with no caps for ~\$60/mo. These prices/offers are far, far superior to what the "big telecoms" offer. This competitive speed/price is all due to competition that exists in my market. I hope we can EXPAND competition in the US for broadband, not limit it further. All Americans deserve access to cheap, reliable, and FAST broadband Internet.
